## **Counselling Cell Department of Psychology M.B.B. College, Agartala**

Counselling Cell of the Department of Psychology, MBB College, Agartala was established and inaugurated on the 12th of September 2014 by the Principal, M.B.B. College, Agartala. The HoD, faculty members and students of the department were present in the inaugural programme. The primary aim of the Counselling Cell is to help our young and adolescent students some of who may be going through a very rough emotional phase of their lives (including both academic and personal).

In 2021-22, 8 (eight) students underwent counselling through our Counselling Cell.

Besides, during the COVID-19 pandemic period the faculty members of the college were also associated with NIMHANS, Bangalore and were involved in tele-counselling.

### Sources of Renewable Energy

#### Geo-thermal Energy

Geothermal energy is the heat that comes from the sub-surface of the earth. It is contained in the rocks and fluids beneath the earth's crust and can be found as far down to the earth's hot molten rock, magma.

To produce power from geothermal energy, wells are dug a mile deep into underground reservoirs to access the steam and hot water there, which can then be used to drive turbines connected to electricity generators.

India has seven geothermal provinces and number of geothermal springs. Geothermal resources in India have been mapped by Geological Survey of India (GSI) and broad estimate suggests that there could be 10 GW geothermal power potential as per Ministry of New and Renewable Energy.
