

# ***Report on Tree Plantation Programme in Botany Department-2023***

A very auspicious Tree Plantation Programme was organized in Botany Department on 2<sup>nd</sup> September, 2023. The purpose of this programme is to spread greenness by planting plants. Firstly, we started planting saplings in the garden of our department and after that we planted saplings in the earthen pots in the corridor. Students also made some posters and banners on the importance of tree plantations. We pasted banners and posters in the area around our department. So that all the students of our college read these and know the importance of tree plantation. The students of different semesters were given 20 saplings to plant in and around our department and the remaining saplings were planted by the senior students in the college campus. One by one students and teachers started planting saplings. All the teachers and students participated in this programme.
